Public Comment

Larry Gott reported that the pumper truck will need the pump repaired. Cost approximately \$2000.00.

Complaint forms received from Bart and Marsha Wilson. Marsha says she filed the complaints with Roger Trudell, county commissioner. The forms were not shared with the board. Curtis asked to see the forms but the forms were taken back by Marsha and given to Gerad to sign. She said she had a right to do this every month and the board couldn't stop her. She demanded that Gerad sign the forms and return them to her. Before Gerad could read the complaints she began berating him about being afraid to return the forms to her. Complaint is regarding unlicensed vehicles and used mobile homes on the Mallay property near their property. Ms.Wilson was confrontational with Gerad Himebaugh, and then repeated several times that he, (Gerad) "had sunk his own grave." Gary Curtiss and Bob Johnson said they would drive by the area to check out the situation.

Lapham and Associates, (Jim Klein and Don Hamilton) presented the reports on the feasibility study for water and sewer. Further study by the committee needs to be considered regarding funding, if any, from federal funds. Don Hamilton from Lapham can spearhead a drive to find grant monies. It was the concensus of Lapham that a sewer project will put an undue burden on businesses and residents in Winn. The fresh water project may have more merit and should be studied by the committee, and should be a stand alone project not tied into Morbark. It was recommended that the Winn consider a community fresh water well (Louise Forquer), that residents could draw from for drinking water.
